

### Diagon Alley

Privet Drive Start

Chess game is long, lose one turn

### How to play Harry Potter Lego Sorcerer's Stone

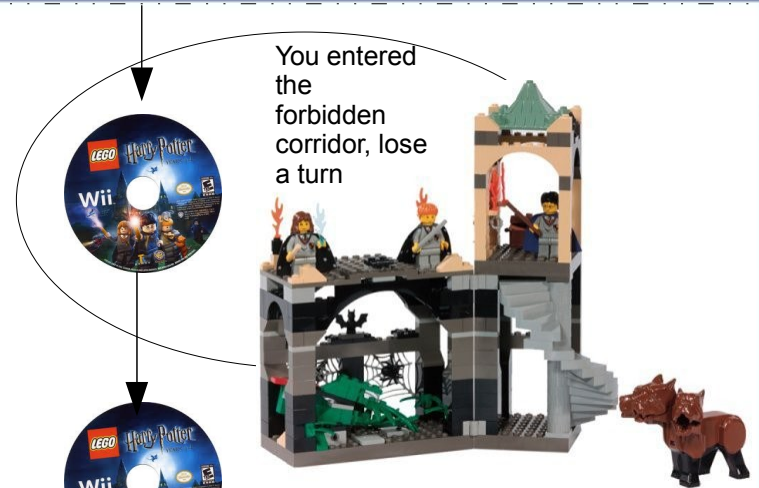

This is a cooperative game, so all players are playing together against Voldemort.

- Each player selects a Lego figure they own (or use a button, or other small object which is unique for each player). Lego figures stay up better if they are mounted on a 2x2 lego
- Use one dice
- One figure is designated Voldemort (he is not a player)
- All players (including Voldemort) start at Privet Drive.
- On each roll, the player moves the number which shows on the roll, except when 6 comes up, Voldemort is moved 6 places.
- If any player lands on Voldemort's disc, Voldemort goes back 2 spaces. If Voldemort lands on your disc, you go back to the start. Since this is a collaborative game, any player can give the value of their roll to someone else (to further the other person or to force Voldemort back)
- If anyone makes it to the Sorcerer's Stone before Voldemort, everyone wins!
- If Voldemort makes it to the end, watch out! He will have the Sorcerer's Stone!

Snape keeps you after class, lose a turn

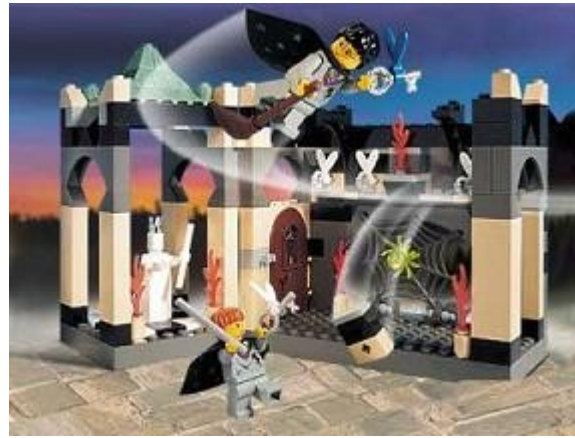

Choose someone to move 3 forward

Hagrid's Hut

You can't go into the Chamber of the Winged Keys by yourself. Help a friend get here by donating your rolls until they get here

Troll on the loose! Send one player up or back to Hagrid's Hut
